Good Afternoon Leanne and apologies for the delayed response.

As indicated to you verbally the consultation process regarding the draft JETP IP has followed a two track process.

1. There have been constituency engagements for representatives of organisations in the civil society, labour, youth and business sectors. These have been convened by the PCC on behalf of the PCFTT.
2. There have been 4 roundtables convened with experts in their individual capacities who commented on the accuracy, underpinning assumptions and further work needed. These were convened by the Secretariat and addressed the Electricity Sector, the Just Transition, Electric Vehicles and Green Hydrogen.

Your engagement with the PCFTT took place prior to the decision to convene the constituency sessions and once they were scheduled we were under the impression that your request for organisational representatives to participate in the discussion would be addressed through that process.

Please note that the Finance and Implementation working groups have not yet been convened.

We are awaiting the required Government approval processes to be concluded and for the PCFTT to decide on the form of the consultative process going forward.

We look forward to engaging with yourselves at that stage and look forward to your responses to the IP that has been prepared.

Kind Regards

Joanne

Kind regards,

Joanne Yawitch

Dear Ms Yawitch,

I refer to the correspondence below and our conversation on 26 August 2022, during which you undertook to revert to us as soon as possible. I confirm that, to date, we have not received a response.

Best,

Leanne Govindsamy

Dear Chantal and colleagues,

We confirm that we have not received a response to our email containing civil society nominations to the working groups established by the JETP secretariat.

Best,

Leanne Govindsamy

Dear Leanne, and colleagues

Thank you for the frank and engaging exchange on Monday, we are grateful for contributions and insights that were offered.

We appreciate your responding at short notice to nominees to engage in the working group process that the JETP Secretariat is presently coordinating. We have shared names with Joanne Yawitch and Sue Lund (copied here) and they will take the process further, based on how they have arranged the coordination.

Thank you for your continued engagement and support to the JETP process, and the broader just transition climate change response.

Best Chantal

Subject: Climate Finance Working Groups: Recommendations

Dear Tanya and Chantal,

During our meeting with Daniel and Chantal on Monday, one of the issues which arose related to the composition of the five climate finance working groups which are being established to support the climate finance task team. In light of our concerns about civil society engagement and participation in these working groups, we were requested to provide some recommendations from LAC and Fair Finance Southern Africa on potential CSO representatives. We therefore suggest the following people to join the various working groups.

1. Cross-cutting finance working group – Alia Kajee (350.Africa);

2. Implementation working group – Leanne Govindsamy (Centre for Environmental Rights)
3. Green Hydrogen working group – Hilton Trollip (Independent Consultant) & Avena Jacklin (groundWork)
4. Power Generation working group – Nthabiseng Matsoha (Earthlife Africa)
5. Transport working group – Dr Victor Munnik (Life after Coal campaign)

Please let me know what further information is required as well as an indication of the process going forward? Finally, we have had quite a short space of time to compile recommendations and may send one or two other names during the course of this week.

Best,

Leanne Govindsamy
